**A worldwide top 10 Maths & Stats summer school according to INOMICS (in 2015-2017)**

**MADRID-UPM Advanced Statistics and Data Mining Summer School 2019**

Madrid, June 24—July 5, 2019
This summer school complements the technical background of attendees in the field of data analysis and modelling.

Open to any student or professional seeking further knowledge about a field that is more and more involved in nearly all productive areas (Computer Science, Engineering, Pharmacy, Medicine, Economics, Statistics, etc.)

Also providing a set of computational tools to try the studied techniques on practical problems.

Teachers will make the course content accessible to students with all backgrounds.
